324 Howard Street  
Rockland, MA 02370

Re: Logan International Airport  
International Terminal (Terminal E)  
Roof Renovations  
Boston, MA

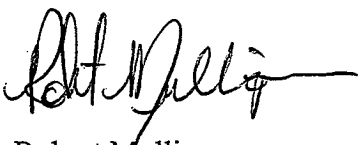

Skanska USA Building (Skanska) is pleased to inform you that Commonwealth Building Systems, LLC (Commonwealth) personnel have met the necessary security clearance process for access to the above referenced site.

As you may know, Skanska is mandated by the Transportation Security Administration (TSA) to meet stringent security clearance requirements including worker personnel FBI background checks, substance abuse testing and safety and security training.

Commonwealth Building has done a tremendous job of badging several workers on the first attempt, in a short amount of time. This is a testament to your attention to detail and commitment to the project, Commonwealth Building should be congratulated and proud of this accomplishment.

We are certainly off on the right foot and look forward to a successful completion of this sensitive project. Please contact me if you have any questions.

Very truly yours,  
Skanska USA Building

Robert Mulligan  
Project Manager
